

How to navigate the Golden Nugget Online Casino app

[Jazz music playing]

Welcome to the Golden Nugget Online Casino! In this video, we'll walk you through navigating the app.

After logging in you'll see the homepage with available promotions and resources across the top in the carousel.

To get in on the action, tap the plus icon in the top right corner to make a deposit.

If it's your first time depositing, you'll need to connect your account information for the payment type you want to use.

Payment types available are determined by your jurisdiction.

Once you have money in your account, it's time to opt into available promotions and find your favorite games!

You can easily opt in to a promotion directly from the carousel. Promotions can also be found by selecting Rewards at the bottom right.

Next, let's find your games. Below the carousel you can find a variety of games and filter by For You, New, Jackpots, and Game Types.

If you know the game you're looking for use the search bar. You can also adjust your view between a list and tiles. Tap your game of choice and tap Play.

Or if the game has a progressive jackpot, you can opt in to the jackpot by tapping Opt In and Play for your chance to win big!

After playing, check your crown balance and tier status from Rewards at the bottom right.

If interested, Redeem your Crowns for other benefits like Casino credits or spend them in the Dynasty store.

Enjoy friendly competition? Check out our Leaderboards!

Engage in a lively competition to win rewards and secure a top position on the leaderboard. Find your final position and any credited prize details in the Casino Leaderboard Results.

Finally, when you need to make changes to your account information, change your notification preferences, check your game play history, or find help,

Tap your profile icon to access this information and more.

Responsible Gaming tools like Player Limits, Cool Offs, and Self Exclusion can be found under the Patron Protection Center.

From Login Security Preferences you can update your account information and manage two-factor authentication.

Be sure to adjust your notification preferences from the settings menu to receive emails and bell notifications when using Golden Nugget Online Casino.
